

# Diploma thesis HappyFlow

Markus Schuster, Daniel Pressnitz, Pascal Klug, Simon Mlatschnik

January 6, 2020

## Contents

1	Introduction	2
2	Eidesstaatliche Erklärung	2
3	Sperrvermerk	2
4	Danksagung	2
5	Vorwort	2
6	Abstract in german language	2
7	Abstract in english language	2
8	Aufgabenstellung	2
9	Ausgangslage und Problemstellung	2
10	Theoretical background	2
11	Wanted result	2
12	Organisation	3
13	Project members	3
14	Communication with the company	3
15	Project basics	3
16	Technologies	3
16.1	SWT . . . . .	3
16.2	Eclipse . . . . .	3
16.3	Java . . . . .	3
16.4	Slack . . . . .	3
16.5	Git . . . . .	3

## **1 Introduction**

This is the beginning of the Introduction

## **2 Eidesstaatliche Erklärung**

This is the beginning of this section

## **3 Sperrvermerk**

This is the beginning of this section

## **4 Danksagung**

This is the beginning of this section

## **5 Vorwort**

This is the beginning of this section

## **6 Abstract in german language**

This is the beginning of this section

## **7 Abstract in english language**

This is the beginning of this section

## **8 Aufgabenstellung**

This is the beginning of this section

## **9 Ausgangslage und Problemstellung**

This is the beginning of this section

## **10 Theoretical background**

This is the beginning of this section

## **11 Wanted result**

This is the beginning of this section

## **12 Organisation**

This is the beginning of this section

## **13 Project members**

This is the beginning of this section

## **14 Communication with the company**

This is the beginning of this section

## **15 Project basics**

This is the beginning of this section

## **16 Technologies**

### **16.1 SWT**

### **16.2 Eclipse**

### **16.3 Java**

### **16.4 Slack**

### **16.5 Git**
